PROJECTS

SCA-IT - Infrastructure & Networking Platform

Jan 2026

- Architected a full-stack MERN dashboard to visualize industrial IT services with real-time performance tracking and live metrics.
- Utilized Tailwind CSS and React.js to build a responsive, dark-themed frontend supporting dynamic service navigation and interactive data modules.
- Implemented a secure Backend using Node.js and Express to manage high-fidelity data flow and API integrations for infrastructure monitoring.
- Integrated MongoDB Atlas to store and manage persistent user feedback and registration data through a scalable, cloud-based database.

Tech: React, Node.js, Express.js, MongoDB, Socket.io, Vercel.
